

## 13 arrested in peaceful civil disobedience:

# Hundreds of workers, students and faculty protest layoffs and tuition hikes

In response to the UC Regents unilateral imposition of furloughs, layoffs and hours reductions, as well as the threatened additional 32% tuition increase, hundreds of UC workers, students and faculty demonstrated their strong opposition to the Regents' irresponsible actions at the Regents' September 16 meeting at UCSF Mission Bay.

## Regents reject dialog

The protest began inside the meeting when several audience members challenged the Regents to engage in dialog about the future of the university. Instead of talking, the Regents took the coward's way out and left the meeting room, hiding behind a wall of UC Police personnel.

## People's Board of Regents

As the UC Regents left the room, 13 of the audience immediately attempted to convene a People's Board of Regents in order to adopt a resolution on the future of UC.

## UC responds with arrests

To no one's surprise the UC Regents rejected dialog in favor of arrests and the 13 members of the People's Board of Regents were placed under arrest by UC security.

## Protest continues outside

The protest continued outside the UCSF Community Center while the UC Regents resumed their meeting.

As the arrested People's Regents were taken away in SFPD paddy wagons, they were greeted by the loud cheers of the protesters.

The People's Board was cited and released about an hour after the protest ended.

# Hold UC accountable!
